

# TATA SIERRA

escape mediocre

It opened minds to the art of dreaming.  
It redefined what owning a car could mean -  
bold, aspirational, unforgettable.  
Sierra was not just driven.  
It was admired. Desired. It was extraordinary.  
Now, the legend returns.  
Reimagined for a new era.  
Sharper in design.  
Richer in detail.  
More iconic than ever.  
For those who've arrived.  
And now seek to arrive differently.  
For those who refuse to blend in -  
because they've earned the freedom not to.

# TATA SIERRA ^

escape mediocre

**reddot** winner 2025

**When design  
dares to escape  
the ordinary,  
the world  
takes notice**

The most prestigious design competition, Red Dot, awarded Sierra for its bold and ground-breaking design. Since 1955, Red Dot has set global benchmarks in design and innovation. This year, an international jury unanimously crowned Sierra with this distinction, outshining global rivals.

It stands as the first car in India to be recognised by Red Dot, an iconic feat by an SUV that redefines what's possible.
